Dear Mr. Levay:

On July 10, 1995, a field compliance inspection was conducted for your notice, UTU-072851, which includes unpatented mining claims UMC 294072, 294078, 294100, 294096, 294102, 294176, 294177, 294122, and 294132 located in Section 27, 34, and 35, T. 23 S., R. 9 W. This notice was accepted by our office on July 1, 1994, and the amendment to your notice was accepted by our office on September 13, 1994, under the 43 CFR 3809 regulations for surface management. Based on our inspection, we have determined the surface disturbance related to your drilling operation is negligible and has satisfactorily met our reclamation guidelines. Therefore, this notice case file is closed.

If you restart any mining related activity that causes surface disturbance, then you must re-notify this office at least 15 days prior to the start up of your operations.

Thank you for submitting your notice and for your support in proper management of public lands.

Sincerely,

Rody Cox
Geologist
